

## About Us

In the simplest of terms The Jonathan House Ministries purpose and passion is discipleship. What sets us apart is our approach and effectiveness. When it comes to discipleship it's not a "one size fits all" but rather, a lifelong process that is unique and specific to each individual. We believe discipleship should be more than solid biblical teaching. True discipleship should extend far beyond the realm of biblical truth and into the area of equipping the saints for the work of the ministry (Ephesians 4:12). For a man to live a Godly life and never engage his destiny would be a tragic misuse of the blood of Calvary.

The heartbeat of The Jonathan House Ministries lies in awakening destiny in the hearts of men and women. Through deliverance, inner healing, counseling, mentoring, and discipleship, The Jonathan House Ministries is helping equip an army that is confident, and well equipped for the battle that rages today. The Jonathan House is committed to change the spiritual climate of America through changing the lives of people one individual at a time.

## **Personal Ministry:**

Our personal ministry sessions are designed to

free the individual from bondage, oppression, and generational/ bloodline curses. For over ten years of ministry, we have developed an extensive questionnaire that aids in identifying potential entry points where the devil may have gained a foothold in your life.

## **Property and Residential Cleansing:**

Over the years we have heard many stories of “odd” or “peculiar” things which have taken place at people’s homes, and from this we have had many requests to come and pray over people’s property and home. During the property and residential cleansing we walk the property grounds, anoint and pray over boundary markers, pray over all out buildings, and pray through the entire residence. We will also deal with any spiritual issues that were identified through the Property and Residential Cleansing Questionnaire.

## **Business Cleansing and Consultation:**

Through our Business Cleansing and Consultation we help business owners identify potential footholds the devil may have through a variety of business activities that have taken place. Things such as dishonest accounting, word

curses, unforgiveness, occultic objects and a host of other things can affect the health of a business. The Business Cleansing and Consultation consists of several meetings with the business owner, personal ministry with the business owner, and an onsite visit to the business which includes spiritual cleansing of the business.

## **Church Consultation and Equipping:**

Many churches see the need for a healing and deliverance ministry within their church but are overwhelmed and many times a bit frightful of this ministry. Our Church Consultation and Equipping ministry will work with pastors and church leaders to help them gain a firm understanding of the healing and deliverance ministry as well as help them establish a fruitful and balanced healing and deliverance ministry within their church.

## **Teaching:**

We are available to minister on a wide variety of topics at conferences, and seminars. Our teachers and presenters have many years of experience bringing forth the Word of God in a clear and effective way.
